This walk will officially open Readington’s newest public open space, a wooded area with trails for walking, jogging, enjoying nature and environmental education. Tucked between the Village of Three Bridges and Three Bridges School, and accessible from both Forest Hill Drive and, in the village, from Case Avenue, this 23 acre Township property has been developed into a network of trails with information kiosks at the entrances, benches at convenient locations, signs explaining features in the growth of forest life, species tags on unique trees, and a demonstration “deer enclosure.” Park improvements were funded by a PSEG Foundation/Sustainable Jersey Small Grant, and many were constructed as an Eagle Scout project.
